PREFACE

The Catalog of Copyright Entries is published in four parts. Part 3, containing the entries for musical compositions, formerly issued monthly but issued as an annual for 1946, is divided into four sections: Unpublished Music, Published Music, Renewal Registrations made for musical compositions under the provisions of section 23 of the Act of March 4, 1909 (17 U. S. C. 23) and Title Index.

This section of the Catalog consists of a Title Index to the Catalogs of Unpublished and Published Music. The name of the composer of a given work will be found on the line below the title. The abbreviations EP and EF indicate that the item is listed under the name of the composer in the Catalog of Published Music. Titles without such an abbreviation will be found under the name of the composer in the Catalog of Unpublished Music. Titles which appear in both Catalogs have the note "See EP and EU." The note "See title in name list" indicates that the main entry, under title, is interfiled with the other main entries in its appropriate catalog.

Renewals are not included in this index, since they are listed under title in Group 3.

The cost of Part 3, shown below, is payable in advance to the Superintendent of Documents, Washington, 25, D. C., by postal money order, express order, or New York Draft. The prices of the several parts of the Catalog of Copyright Entries for 1946 are as follows:
